Radius of Hollow

Blade Measurement

Rocker

The two most common rockers are 7' and 8'

Aggressive **Mild**

3/8" 7/16" 1/2" 5/8" 3/4"

Radius of Hollow Comparison

3/8 vs. 3/4 Magnified

Aggressive ROH	Deeper edges, more time between sharpenings, slower, can be "grabby".
Mild ROH	Faster, good flow, easier edge stops.

7' Rocker	More agile, easier spins, slower.
8' Rocker	Faster, more stable at speed, more difficult turns & spins.
